Net Assets	\$43,978

2008 STATISTICAL INFORMATION

<p>Other Significant Information (Reviewer Comments to Local Section) -----></p>	<p>The Montana Section is geographically the largest section of the ACS. It is noted that your section Officers are all from different sites; this is really a great way to maximize contact with as many of the members as possible. Your public outreach program looks great; glad to see your participation in the Chemistry Olympiad and the SEED Program. The only suggest would be to schedule meetings at different sites in the section to reach as many members as possible; a meeting doesn't have to involve the whole state. Keep up the good work. The times are challenging but you are still doing a great job. The ACS sincerely appreciates your hard work.</p>
